Thanks Spencer. I'll ask them to coordinate with Wood for disposal. Are you the POC for that?  
I'll inform them that they should plan on using the lined pond unless directed otherwise and request that they notify us if the schedule/quantity changes significantly.

Ed

We understand that they will dispose of their waste water to the Lined Pond following established procedures. Assuming this is the plan, we do not envision any issues with the anticipated waste deliveries.

Please confirm disposal is to the Lined Pond.

Thanks,

CLASSIFICATION: UNCLASSIFIED

Spencer/Eric,

Per Section 01 10 00, Par 7.2.2, outside entities such as the CDA Trust will need access to the CTP facility for disposal of generated wastes. Given the intensity of construction activities that will be happening this year, Ed reached out to CDA Trust to get an estimate of their anticipated disposal needs for this season. Their response is in the email below.

Please let Ed and I know if you envision any issues with the anticipated waste deliveries.

Thanks,

Rod:

Given the active year planned at the CTP I asked the Trust to provide more details about their estimated delivery and volumes. See email from Dan and the attachment.

Let me know after you've shared this information with AMEC if they anticipate any issues with the delivery schedule that I need to communicate to the Trust.

Ed

Ed

Attached is the updated CTP request with the corrected dates. Below is a summary of our understanding of what our water disposal needs will be each week through the week of September 3rd. After that we're not certain how much more water will be generated but it would be minimal, if any. Let us know if you have questions.

Thanks, Dan

Week of:

July 9 - 300 gallons

July 16 - 300 gallons

July 23 - 300 gallons

July 30 - 300 gallons

Aug 6 - 700 gallons

Aug 13 - 300 gallons

Aug 20 - 600 gallons

Aug 27 - no water generated

Sept 3 - 200 gallons
